MARCH MADNESS SHEET SET

Use our March Madness set just as you would the Fantasy Football sheet set to play various point scoring games all basketball season long with our many different models of money machines. Use your imagination to create unique activities for contestants to compete against each other.

Examples:

One Arm Bandit Machine

Give each contestant 10 seconds to grab as many pieces as they can. Total their score by adding and subtracting the point values on the basketball bucks. Players can compete against each other for high scores or you may require them to score a minimum amount of points to qualify for a prize or prizes.

All Money Machines

Create a playoff bracket among contestants that compete head to head against each other. Award prizes not only to the playoff winner but maybe second through fourth place finishers as well!
