POINT BUCKS SHEET SET

Use our point buck sheet set to play various games with our many different models of money machines. Use your imagination to create unique activities for contestants to compete against each other.

Examples:

One Arm Bandit Machine

Scratch Off: Have random three-digit scratch off cards made for this game. Insert 7 or 8 pieces of each number into the machine (70 to 80 total). Turn the machine on and let it run constantly. Allow each contestant to reach in the machine and pull 3 pieces out (one at a time). The player would then draw a scratch off card and reveal the hidden 3 digits. Prizes could be awarded for matching 1, 2 or 3 numbers.

All Money Machines

High or low point contest: Insert 10 to 30 of each number (depending on machine capacity) into your machine. Allow contestants an equal amount of time to grab prizes. Total each players' score and award prizes for high or low scores. Use the XX and XXX pieces to double or triple scores.
